

CANADA

Take-Home Review Activity

Canada is a vast country with many landforms and resources. Canada's economy benefits from fertile farmland, rich mineral resources, and skilled workers. Canadians of many different backgrounds live in towns and cities close to the United States border.

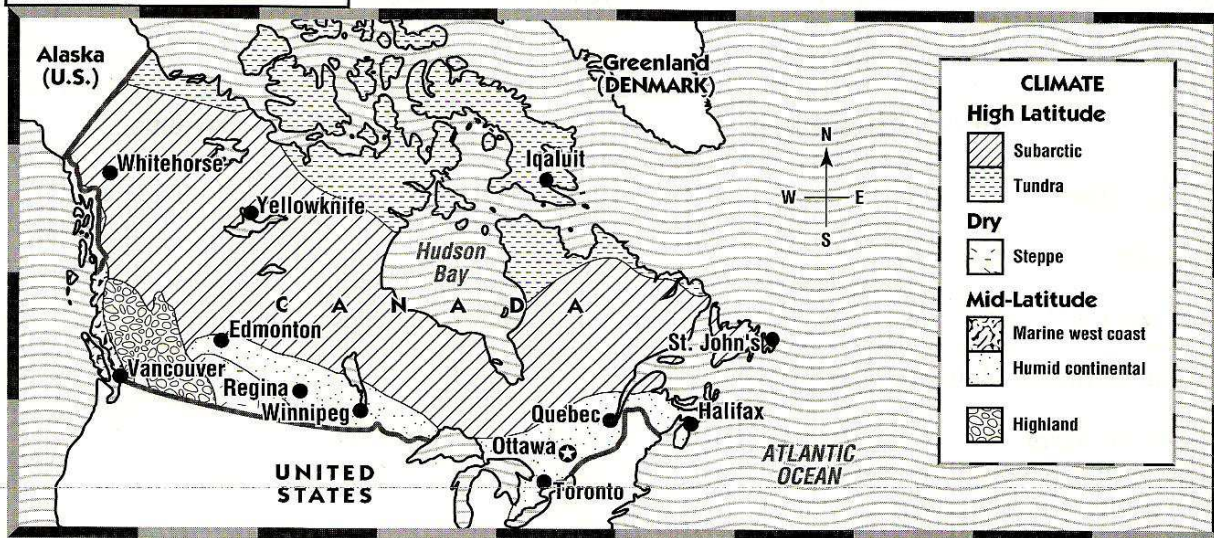

Reviewing the Chapter

THE CANADIANS

- Quebec and Ontario have Canada's largest cities and most of its people.
- Native Americans and the Inuit were the first Canadians. French and British settlers later built homes in Canada. More recently, large numbers of immigrants have come from Asia and eastern Europe.
- Canada's government is a parliamentary democracy headed by a prime minister.
- Some people in French-speaking Quebec want to separate from the rest of Canada.
- Canada's population is made up of many different ethnic groups. English and French are the country's two official languages.
- Canada's native peoples have recently been given more autonomy to govern themselves.

CHAPTER

Canada: Climate

Did You Know?

The name Canada comes from a word meaning "village" or "community" in one of the native Iroquois languages.
